---

I called Latrice and she directed us to proceed with the current rate disc and run 1900s but to make a note or comment on the 1900 that the rate disc has not been updated to reference CB&I and the KO is working with ERT to get an updated rate disc.

Thank you all for the support.

Dan we are trying to do a couple 1900.55s for CES.. The new rate disk we have from EPA does not give us the option of picking CBI as the contractor only Shaw.. Please get with Latrice and see what we need to do or if ok to leave as Shaw. I do not want to have to redo all these if it is an issue.. We are spending enough of our own money on issues that aren't all ours for no reimbursement as it is..
